Strengthening & Sustaining a Network for Veterans and Military Families

The 2026 Veterans' Mental Health and Wellness Summit aims to uplift those who serve our nation and their families by convening those who provide them with critical care and services.

This one-day conference convenes counselors, social workers, and mental health care professionals in person and virtually who are dedicated to serving veterans and military families. This year's theme is "Thriving Together: Strengthening and Sustaining a Network for veterans and Military Families."

This summit aims to build meaningful dialogue about veteran mental health, holistic wellness, and building collaborative networks to foster trust and improve outcomes while bringing together industry-leading experts, offering opportunities for attendees to earn continuing education credits, and fostering conversation and connection among providers.
